

TIDEWARDEN DISPATCH

Gullwatch is broadcasting a prohibited three-pulse lane code. Reach the lantern room before flood tide. Restore the true harbor signal if possible. Recover the brass signal key. Do not remove the Brineworn Orb until its state is known.

Authorized: Mara Vale, Third Tideward

KEEPER'S LAST LOG

Wind north-east. Lens stable. Relief ship overdue. Guild order says hold the dark lane, but that lane ends on reef. I will not send them blind into -

The remaining page is stiff with salt. A warm thumbprint marks the unfinished line.

OVERWRITTEN SIGNAL STRIP

TRUE: one long, two short, one long. SAFE WATER EAST OF GULLWATCH. FALSE: three equal pulses. GUILD CHANNEL OPEN.

Fresh black wax covers the true code, but the older cuts remain visible beneath it.
